### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. This office action is responsive to the communication on submitted on February 27, 2008; claims 1-20 are pending in this instant application.
2. The objection to the drawing is withdrawn in view of the argument and the drawing provide in the response on February 27, 2008.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 is unclear. See for instance the language in the step of "forming and memorizing a first edge of the memory layer". The specification fails to point the different between the forming and memorizing. Therefore, the scope of protection between these two steps is either unclear or indefinite. The claiming of the "memory material" in "loop of sub-lithographic well-controlled image size of memory material" in claim 1 is unclear whether these material is the material forming the memory layer or otherwise. There is no antecedent basis for the term "the memory layer" in claim 11. See claim 11 line 2 which recites "a memory material", while lines 4-6 recites the "memory layer". Therefore, there is an inconsistency between the languages previously recited. The scope of the protection sought for the underlying material" in claim 2, and the protective layer in claims 11, 13, 14 is indefinite since the specification fails to provide support for such claiming.

5. Claims 17-20 are allowed.

***Response to Arguments***

6. Applicant's arguments filed February 27, 2008 have been fully considered but they are not persuasive for the reason set forth above. The underlying material or the protective layer presented in the claimed invention is not limited to the underlying oxide layer or the capping layer presented in the argument. The claimed terminology presented in the claims is not presented in the specification. Therefore, the scope thereof cannot be determined in view of the specification disclosure.

***Conclusion***

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thorl Chea whose telephone number is (571) 272-1328. The examiner can normally be reached on 9 AM-5:30 PM.
